Current activities in Priority Area 06

Florian Ballnus

Bavarian State Ministry of the Environment
and Public Health

Priority Area Coordinator

Bayerisches Staatsministerium für
Umwelt und Gesundheit

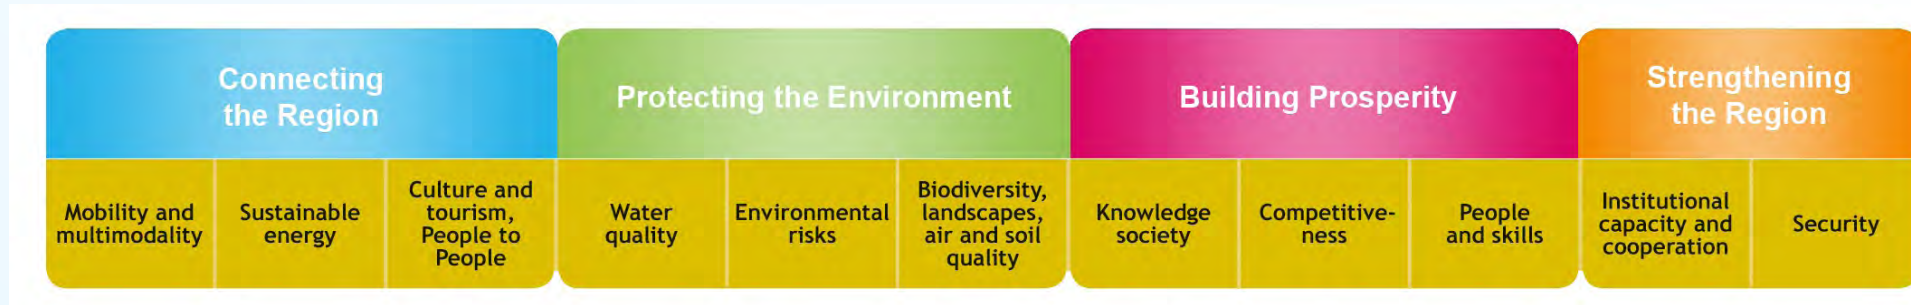

Tulln, 18 April 2013

EUSDR

4 Pillars – 11 Priority Areas

- Coordination of implementation of the **11 Priority Areas** by two **Priority Area Coordinator (PAC)** from two countries.
- **Bavaria** (Bavarian State Ministry for the Environment and Public Health) together with **Croatia** (Ministry for Environment and Nature Protection) is PAC for Priority Area 6: Preserving biodiversity, landscapes and the quality of air and soils

PRIORITY AREA 6

Preserving biodiversity, landscapes and the quality of air and soils

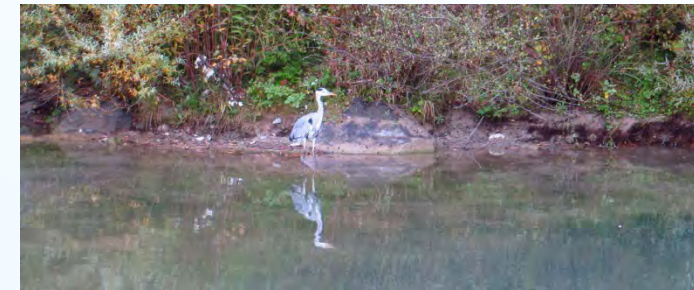

Targets of Priority Area 6

- To **halt the deterioration** in the status of **all species and habitats** covered by EU nature legislation and achieve a significant and measurable improvement, adapted to the special needs of the Danube Region by 2020.
- By 2020, **ecosystems and their services** are maintained and enhanced by establishing **green infrastructure** and **restoring at least 15%** of degraded ecosystems, **including degraded soils**.
- By 2020, **Invasive Alien Species** and their pathways are identified and prioritised, priority species are **controlled or eradicated**, and pathways are managed to prevent the introduction and establishment of new IAS.
- Secure viable populations of **Danube sturgeon species and other indigenous fish species** by 2020.

Action Plan identifies 16 actions for Priority Area 06

Cooperation and Networking

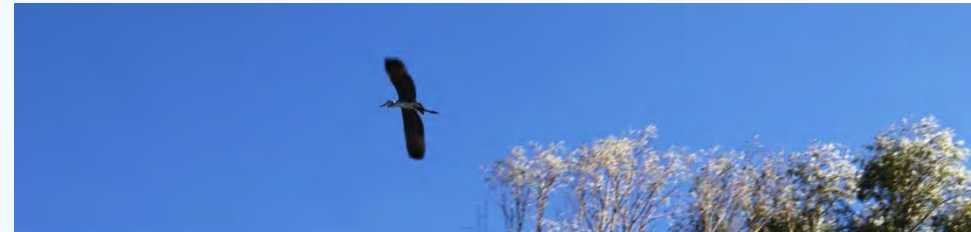

- PA6's mission: Make the voices of biodiversity and nature protection heard by using **EUSDR momentum!** Connect new and ongoing activities with **policy level**.
- Make the voices of biodiversity and nature protection heard by developing and implementing **realistic** and **convincing activities!**
- **Stakeholder involvement** and their **networking** is seen as precondition for PA6 and EUSDR-related activities. Strong need to establish **circum-Danubian Networks!**
- **Stakeholder** as **multiplicators** and **regional contact points** for PA6
- **Information** about opportunities and possibilities of PA6 and EUSDR to stakeholder and public.

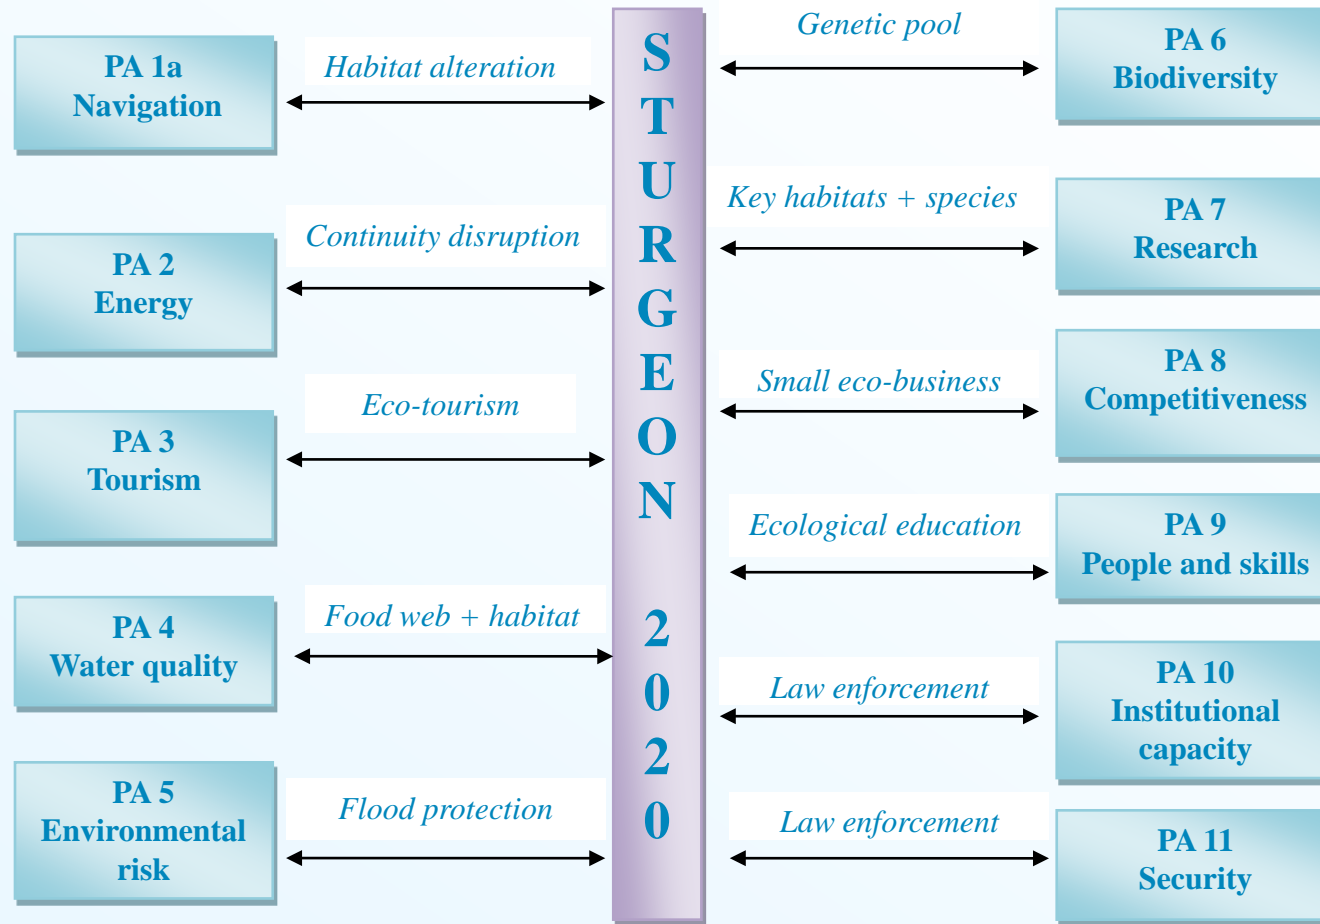

Implementing the EUSDR – the PA6 approach

Integrative approach within EUSDR

- Cooperation in the **Environmental Pillar II** is well established.
- Priority Area 6 is strongly connected to **other Priority Areas** (e.g. Transport, Energy), cooperation shall be enhanced here as well. Development of integrated processes under common umbrella of EUSDR.
- PA6 and PA1a (Inland Navigation) established cooperation (Steering Group attendance, Joint Workshops, potentially joint project development).
- EUSDR provides **opportunity** to create and develop **horizontal thematic links** among different “branches” and to **bring together** the relevant **stakeholders**.

Interrelation of Sturgeon Strategy 2020 with EUSDR.

Implementing the EUSDR – the PA6 approach

Summary of the PA6 approach – key characteristics

- Horizontal integration: cross-sectoral perspective.
- Vertical integration: bottom-up (involving stakeholder and actors), connection to policy level. PACs as service providers and facilitator.
- Demand-driven: facilitate, strengthen and foster emerging and existing activities.
- Open and flexible processes, there is no “one-fits-it-all” approach.
- Development of PA6 Stakeholder Network in Danube Region.

Philosophy

- Focus on realistic and feasible activities.
- Respecting principles of sustainability and equal opportunities
- Enhancing visibility.

Implementing the EUSDR – the PA6 approach

Added value of the EUSDR – Personal reflection

- Coordinate existing and new activities in the entire Danube Region.
- Concentration of funds.
- Horizontal and vertical integration.
- Equal weight of each Priority Area.
- Holistic approach possible
- Political awareness, support and strategic approach
- Macro-regional identification and awareness building.
- Connecting people from 14 countries by concrete actions under one umbrella.
- Several more opportunities to be explored within the process!

Thank you for your attention!
